Community and Investors (80)
Burn (20)

1. ****Community and Investors (80%):****

- This portion of 800 million coins allocated to the community and investors.
- These coins will be sold directly to the community and investors during the Fair Launch Presale, forming the liquidity pool from these sales.
- The bonding aims to achieve an approximate market capitalization of \$13,000.
- After the bonding, any excess tokens will be burned.
- Upon successful completion of the presale, the coin will be listed on the pepu DEX exchange.

2. ****Coin Burn (20%):****

- A portion of 20% of the tokens is allocated for coin burn.
- This allocation will be regularly burned to decrease the total number of coins in circulation, aiming to create a deflationary effect.
